FRIDAY, FEB. 11, 1898.

Strangers must think it strange to see different single streets in Honolulu bearing two names, such as "Pilling's Best" and "Schond's Extract." Not only is it queer to have two names on one street, but such outlandish names!

Dr. Benedict Friedlander was erroneously made to say, in an interview yesterday, that the three islands of Tongatapu, Haapai and Vavau were a separate kingdom from Tonga. They are on the contrary the main islands of the kingdom, and the mistake arose from a misunderstood question. The esteemed doctor wishes it understood that he did not deem Haapai on account of its small people and coconuts, but because there is no variety and the island is very small.

LATEST FROM WASHINGTON.

making only fifty-nine necessary, and Montana and one other were counted on.

Consul General Wilder received the following telegram from Minister Hatch just before the Alameda sailed:

"Several authorities consider situation improving. Final action not likely for several weeks. President Dole's reception extremely gratifying to him."

A semi-official private letter from San Francisco of the same date states that despite the assertions of Chairman Davis the Annexation treaty is short two votes in the Senate.

FROM KAHUKU WITHOUT WATER.

Horse Driven to Death and His Mate Has Narrow Escape.

A \$200 horse died suddenly at the American stables, Richard-street, early last night and only by the constant attention of Dr. Shaw was its mate in a span saved. James Carty, proprietor of the stables, states that the animals were driven down by one of his men. They had come from Kahuku during the day, and, it is said, were given no water during the entire drive of nearly 40 miles. On entering the stables one of the animals dropped, and died soon after. Dr. Shaw arrived in time to save the second one.

Hope Abandoned.

"For 15 years I suffered with indigestion and my whole system was broken down. I almost abandoned hope of recovery. I took Hood's Sarsaparilla and its effects were marvelous. I am now able to sleep well, have a good appetite and have gained in weight." James Wilber, Oroville, Washington.

Hood's Pills are the favorite family cathartic, easy to take, easy to operate.

As announced yesterday the meeting of the Hawaiian Historical Society in the Y. M. C. A., this evening will be public. Mr. Thrum's paper has been placed in the hands of Prof. Alexander to be read. Hon. Paul Neumann's paper will also likely be read by proxy.

President's Message Arrives.

The Cabinet had a long letter from President Dole today taken from Washington. It is full of matters concerning his reception in Washington and the annexation outlook. The President's message to the Legislature was enclosed in the same packet.

The Anchor.

P. F. Ryan still continues in charge of the Anchor and is ably assisted by William Carlyle. At the Anchor, Seattle beer on draught can always be had as well as the best brands of whiskeys, etc., including John Dewar's Scotch whisky. A full stock of other liquors, wines, etc., is kept on hand also.

PRINCES CUPID AND DAVID

Are Deeded Queen Kapiolani's Property of Every Description.

Large Annuity During Her Lifetime Provided for and All Her Liabilities Assumed by Her Nephews.

Queen Dowager Kapiolani last night consummated an act which she has long had under consideration. This was nothing more or less than deeding her entire estate to her two nephews, Princes David and Cupid.

The deeds and other documents required in transferring such a large estate were signed last night. The consideration named is love and affection, the assumption of all liabilities against her or her property and the payment to her of an annuity during her lifetime. Stamps to the amount of \$670 were required on the deed, this being on a valuation of \$134,000. The real value of the property transferred is probably double that amount.

Over two hundred separate pieces of property are included in the transfer, together with any amount of stocks, bonds, mortgages, promissory notes, jewelry, etc.

The object of the transfer is said to be the desire of the Queen Dowager to end her days in peace and quietness, without any of the cares incident to the management of her large estate, and to make certain the future welfare of her two nephews.

We want to have a talk with you this week on the subject of

STOVES.

Owing to the natural dull times, added to the big competition that is now going on in STOVES, we have cut our prices, and are prepared to be in the fight.

The "Pansy"

is the first one we will mention. You know this stove. It does not need much mention. It is the best in the market for the price. We have it in three sizes and it burns either wood or coal.

The "New Rocket Stove"

is something new here, and we have it in two sizes. It has a deep end ash hearth, which is a strong support for pots, etc. It has also an extension pocket for wood, by which your wood can be thoroughly dried just before using. It will pay you to take a look at this stove.

The "Blue Flame Oil Stoves"

we have in stock at all times. They are very handy for getting up a meal quickly. They give out no odor, and are perfectly safe.
